

COLEGIO GIOCOSA CICLO ESCOLAR 2020-2021

MARÍA EUGENIA DE CASO PANDO

INGLÉS

PREPARATORIA

I am a pedagogue who loves teaching especially at Giocosa, where I have been working for 16 years. I have always been in charge of the B level due to my ability to adapt contents and activities according to each student's requirements.

I think everyone can learn a foreign language with the appropriate motivation and by receiving a suitable guidance. Having a respectful environment is essential for a correct learning experience. I encourage my students to give their best effort and always try to speak English, even when they are only able to say few words.

Together we are going to enhance their speaking and communication skills.

The students will receive assignments when they don't finish all required classwork and sometimes they will get extra homework to consolidate what we have seen in class. We are going to have exams, verb quizzes and projects (individual / by teams) to track achievement progress.

It's going to be my pleasure to work with you. Together we can make a great team. I can't wait to begin this new school year.

See you soon.
